Wumba Apo, Abuja 90010

PROFILE

Organized, dedicated and ambitious budding professional with excellent attention to detail, and thirst for learning. interested in working closely with experienced developers. I have a lot of experience working with backend development tools like node.js, typescript, and express.js, and also with non-relational databases like MongoDB. I have experience deploying APIs on Digital Ocean, Namecheap, and Heroku, including physical servers using Raspberry Pi

EXPERIENCE

August 2022-
Present

Junior Backend Developer, *Namek Solutions*

- Managed efficient NoSQL queries and data transport.
- Built APIs and data clients to consume APIs.
- Integrated third-party APIs from external applications into web platforms.
- Implemented robust security and data protection measures.
- Used Domain driven design architecture for API development with Typescript.
- Collaborated with multidisciplinary team of designers, developers and system administrators.

February 2022-
August 2022

Backend Developer Intern, Namek Solutions

- Cooperated with front-end developers and other team members to design more cohesive and functional code.
- Assisted project manager to prepare implementation plan from technical perspective.
- Designed, developed and tested software applications.
